# About **BRADY**

Once you have worked with BRADY, our name will stick with you, (just like our labels) because BRADY is one of the world's leading labelling and identification specialists.

## Innovative

At BRADY we continue to improve. We have many customers from all industries, and we strive to be ahead of their needs by continuing to invest in research for even more performant solutions. By developing more user-friendly and efficient concepts, we give our thousands of customers the best in the market.

## Strength

At BRADY, we believe our biggest strength is the wide range of identification and safety solutions we can offer our customers, whether it's labelling the smallest component or complete signage for an entire warehouse. We're also proud to offer many products and services - from printers, scanners and software to service contracts and on-site training - that compliment any identification job. And don't forget, our wide network of expert distributors can always offer you a tailor-made solution to meet your specific requirements.

## Trust

For over a hundred years, BRADY has been connected with quality, trust and stability. We demand the best for your products and services, because we know, better than anyone, the importance of good and reliable identification. Identification looks like a small detail, but every professional knows that this kind of detail is crucial to any business.

## Inform

We also have specialised dealers in your region, who can answer all your identification, safety and labelling questions, specific to your activity. They will be happy to provide you with all kinds of options and solutions with no obligation.

Brady products are sold on the condition that the purchaser will test them in actual use and determine for himself/herself their suitability to his/her intended purpose Brady warrants to the purchaser that Brady products are free from defects in material and workmanship but limits its obligation under this warranty to the replacement of the product which has been shown to Brady's satisfaction to have been defective at the time of its purchase.

The warranty does not extend to any persons who have acquired the product from the purchaser. It is in lieu of any other warranty, including every warranty of sale-ability, marketability or suitability for the intended purpose, and is also in lieu of any other obligation or liability on the part of Brady.

Under no circumstances will Brady be liable for losses, damage, costs or subsequent damage of whatever nature which may arise in connection with the use of, or inability to use, Brady's products.

## The Brady Advantage

When it comes to identification, safety and compliance, there's a clear advantage to working with Brady. We put our customers first in everything we do.

Our goal is to give you an unrivalled customer experience. We are relentlessly committed to performance and excellence - in our products, services and people.

Our products and solutions perform in ways that others simply can't match. Our people perform in ways that regularly exceed your expectations. And our focus and discipline work toward solid, long-term performance for our customers.

In short, Brady is the company you trust when performance matters most.

## **Choosing Your Absorbents**

Having the right absorbent for the job makes a big difference. Proper product selection can make your employee's jobs easier, create a safer work environment, and even save you money! These three easy steps will help you find the correct SPC absorbent product for your application.

## STEP ONE: KNOW WHAT YOU'RE ABSORBING

#### Your Spill:

- Hydraulic oil
- · Motor oil
- Brake fluid
- Cooking oil
- Turpentine
- And other oil-based fluids

## Your Absorbent Solution:

**Oil Only Absorbents** 

These absorbents are specialised for oil and other petroleum-based spills including paints and other non-water soluble chemicals. These absorbents will not absorb water and will float indefinitely.

Page 10

#### Your Spill:

- · Coolants
- Solvents
- Gasoline
- Vegetable oil
- Kerosene

fluids

 And other water-based

### Universal Absorbents

Your Absorbent Solution:

All-purpose products that clean-up oils, coolants, solvents and water-based fluids anywhere in your facility. Use around machinery, under leaky pipes, in messy traffic areas or for general maintenance projects.

Page 22

#### Your Spill:

- Aggressive chemicals
- Citric acid
  Sodium hydroxide
- And other unknown chemicals

## Your Absorbent Solution:

### **Chemical Absorbents**

Surfactant-treated polypropylene absorbents can be used on a wide range of chemicals, including hydrofluoric acid, and are chemically inert, so they will not react with aggressive fluids.

Page 28

#### Your Spill:

- Cutting fluids
- Gasoline
- Coolants
- Non-aggressive chemicals
- And other water-based fluids

#### Your Absorbent Solution:

#### **Re-Form<sup>™</sup> Eco-Friendly Absorbents**

These all-purpose absorbents are made from a minimum of 80% recycled material. The Re-Form<sup>™</sup> products are green to produce and green to use, and are up to 50% more absorbent than polypropylene absorbents. They also meet NFPA Class A Fire Retardancy (Universal products).

Page 35

## **Choosing Your Absorbents**

## **STEP TWO: IDENTIFY YOUR ABSORBENT APPLICATION**

#### Wiping, Drips or Foot Traffic Applications

#### Pads & Rolls

Use for wiping or placing under drips and leaks. Pads are pre-cut absorbents, while rolls allow you to choose the length you need.

#### **SOCs & Pillows**

For use around equipment or placing under drips.

#### **Barrier-backed or Heavy Traffic Applications**

#### Mats & Rugs

For use with heavy foot or vehicle traffic, or where a barrier-backed mat is needed.

#### **Emergency Spill Response**

#### **Spill Containment and Spill Kits**

Be prepared for emergency spills with a variety of products already bundled together - so you can be confident you have the products you need to contain unexpected spills. Additional spill control available through the use of spill pallets and absorbent storage centres.

## **STEP THREE:** SELECT YOUR ABSORBENT SIZE AND WEIGHT

Now that you know what you're absorbing, and what style of product you need, you can choose your absorbent from the many sizes and absorbency weights that Brady SPC offers.

(optional) perforated

2 sides, dimpled and perforated

### THINK YOU'RE ALREADY USING THE CORRECT ABSORBENT? PUT IT TO THE TEST!

Want to know if your absorbent is working for you? Start at the end, in the rubbish bin. One of the best ways to pick the right absorbent is to see what it looks like when you're done with it. Take a look.

### **Check Product Type**

Looks like this absorbent roll is being used to contain a leak – consider using a SOC for containing leaky equipment. Brady offers SPC pads, rolls, SOCs, pillows and more so that you have the right type of product to contain your spill.

### **Check Durability**

Are your absorbents falling apart or tearing due to heavy traffic? Choose a tough absorbent for tough jobs so that you can take advantage of the full absorbent potential without your absorbent falling apart.

Under-saturated

Over-saturated

#### **Check Absorbency**

Are your absorbents being used to their absorbency capacity? Or maybe your current absorbent isn't absorbing the whole spill. For small spills, choose a medium or lightweight pad to avoid wasting absorbents.

For large spills, use a heavyweight pad to cut down on the number of lighter pads you go through.

## WHY SPC PRODUCTS?

For more than 30 years, SPC products have helped customers protect against leaks, drips and spills that create safety hazards in the workplace. Brady provides high-quality service, application expertise and product knowledge to SPC distributors and customers.

Brady SPC has a history of innovation and continues to develop industry-leading products and applications. Brady provides on-going lean initiatives to help offset raw material increases to keep costs stable and maintain maximum cost savings for our customers.

#### **Brady SPC - An Environmentally Friendly Company**

As a socially responsible company, Brady SPC continually strives to reduce waste by reusing 97% of materials. In working to sustain unused materials, Brady SPC replenishes all wasted raw materials and reduces the amount of materials sent to landfills. Brady SPC's ultimate goal is to eliminate waste, conserve energy, recover resources and continue to work towards a zero waste facility.

## WHY IS SPILL CONTROL IMPORTANT?

Beyond the obvious need to protect our environment and to reuse or recycle as often as we can, a proper spill control programme can create a safe and productive work environment for your employees.

By complying with EPA and OSHA regulations around spill control we provide our people with conditions that allow for the greatest productivity and the least amount of down time for our facilities. The cost of non-compliance around this area of regulation can be devastating to any business.

#### Spill Prevention Control & Countermeasure (SPCC) Plan

In the United States, the EPA issued its final rule amending the SPCC under the authority of the Federal Water Pollution Control Act. This regulation became effective as of August 16, 2002.

#### What is an SPCC Plan?

An SPCC Plan is a facility-specific comprehensive description of a facility's containment and counter measures that would prevent an oil spill from occurring as well as procedures to respond and clean-up an oil spill that does occur.

The SPCC plan addresses the following three areas:

- Operating procedures that prevent oil spills
- Control measures installed to prevent a spill from reaching the environment
- Countermeasures to contain, clean-up and mitigate the effects of an oil spill that reaches the environment

## **Regulations (Europe)**

Our products support the **89/391/EEC - COUNCIL DIRECTIVE of 12 June 1989** on the introduction of measures to encourage improvements in the safety and health of workers at work -

Article 6: General obligations on employers

Within the context of his responsibilities, the employer shall take the measures necessary for the safety and health protection of workers, including prevention of occupational risks and provision of information and training, as well as provision of the necessary organization and means.

https://osha.europa.eu/de/legislation/directives/the-osh-framework-directive/1

## Water Framework Directive - WFD (2000/60/EC) and Directive 2010/75/EU on industrial emissions (integrated pollution prevention and control)

Please check National standards and safety regulations

http://ec.europa.eu/environment/water/water-framework/index\_en.html

http://ec.europa.eu/environment/industry/stationary/ied/legislation.htm

**ISO 14001** (appendix 1, A.4.7, emergency preparedness and response), the organisation must draw up an emergency plan which requires the provision of absorbent materials to absorb discharged liquids.

### HOW MELTBLOWN POLYPROPYLENE SORBENTS CAN HELP YOU TO REDUCE COSTS...

75% of (industrial) companies are still using granular to clean up spills and leaks because they don't have or know an alternative, or because they believe that granular is the cheapest solution. At first glance, this may be true but the cost comparison below will show that meltblown polypropylene sorbents are a less costly alternative even though the initial purchase price may be higher.

| The cost for cleaning up a spill of 200 litres of oil. |  |   |  |  |  |
|--|--|---|--|--|--|
| Granular Sorbent Pads                                  |  |   |  |  |  |
| Material (kg)  | 200 kg (1 kg of granular absorbs 1 litre of oil) | 10 kg (1 kg of pads absorbs 20 litres of oil) |  |  |  |
| Price per kg (€/kg)                                    | 1 €/kg   | 15 €/kg                                       |  |  |  |
| Total waste (kg)                                       | 400 kg (200 ltr oil + 200 kg granular)           | 210 kg (200 ltr oil + 10 kg pads)             |  |  |  |
| Disposal cost per kg (€/kg)                            | 0.5 €/kg   | 0.5 €/kg                                      |  |  |  |
| TOTAL COST   | 400 € (200 € + 200 €)                            | 255 € (150 € + 105 €)                         |  |  |  |

8

This is a basic analysis using estimations and averages. Savings would be even higher if labour cost was included in this calculation.

## REDUCE COSTS • INCREASE PRODUCTIVITY • IMPROVE SAFETY

More and more industries are using Meltblown Polypropylene (MBPP) sorbents for the control and clean up of oils, industrial liquids and chemicals in their workplace. See for yourself why MBPP sorbents are the product of choice!

As a user of sorbents, you know where at least 75% of your leaks, drips and spills may occur. By using MBPP sorbents, you can easily place sorbents under these risk zones - something that is definitely too messy to do with granules. **THINK SMART ... WORK SMART** 

## **Oil Only** Absorbs Oil and Repels Water

## **Oil Only Absorbency**

Specialised for oil and other petroleum-based spills, oil only pads and rolls will not absorb water and will float indefinitely. These absorbents are unaffected by temperature and impervious to rot and mildew. Ideal for outside use, Brady's oil only SPC products are equally effective in soaking up petroleum-based solvents and paints, vegetable oils and other non water soluble oil-based fluids.

## The Technology

The technology (construction layers, weave and loft) behind each of the oil only products helps determine the strength and absorbency of each absorbent. This information along with the product's characteristics are what helps you decide which absorbent is best for your application.

## **Common Liquids Absorbed:**

- Drilling and cutting fluids
- Hydraulic and brake fluids
- Engine oils
- Transmission fluids
- Lubricants
- Gasoline, diesel and aircraft fuels
- Cooking oils
- Oil-based paints and solvents
- And other oils and petroleum-based fluids

## OIL ONLY ABSORBENT FAMILY:

All of these pads and rolls start with a highly absorbent polypropylene core - the difference is what happens from there. Features such as durability, absorbency grades and spunbound give you versatile absorbent options for your specific application.

|   | Applications  | Durability               | Linting           | Absorbency<br>Grades                | Construction   |

## **ENV - OIL ONLY PADS MADE WITH SPC'S MAXX TECHNOLOGY!** SUPERIOR ABSORBENCY, GREATER STRENGTH PLUS LESS WEIGHT MEANS LOWER DISPOSAL COSTS!

- MAXX pads absorb up to 24 times their weight in oil.
- With MAXX technology less material is needed to pick up the same amount of oil, which results in lower disposal costs!
- MAXX pads are also up to 25% stronger! The superior finish on MAXX pads results in less lint and more abrasion resistance!
- · Packed in boxes for easy handling and storage.

### SPC BLUE - OIL ONLY ROLLS WITH ADDED DURABILITY.

- Absorbs oil & petroleum based liquids.
- One-sided spunbound for added strength and less lint.
- Ideal sorbent for use in the paper industry where the blue colour is desired to differentiate cellulose from polypropylene.

2-PLY Meltblown + spunbound on 1 side dimpled and (optional) perforated

## **OIL PLUS - OUR MOST POPULAR OIL ONLY ROLLS FOR GENERAL INDUSTRIAL USE!**

- · Absorbs oil & petroleum based liquids.
- · One-sided spunbond gives extra strength as well as lower lint.
- A high quality oil only sorbent for applications where a combination of good adsorption and added strength is required.
- Ideal solution for catching overspray that comes from machinery.
- Available with perforations for ease of use and to minimise waste.
- · Wide selection of sizes available.

### **SXT - E**XTRA TOUGH OIL ONLY ROLLS. **D**ESIGNED FOR APPLICATIONS THAT REQUIRE A DURABLE, NON-LINTING AND ABRASION RESISTANT SORBENT!

- Absorbs oil and petroleum based liquids.
- 3-ply construction adds strength and durability.
- Spunbond outer layers make the product stronger for longer use and improved abrasion resistance.
- Ideal for use in areas with moderate foot traffic.
- Perforated for ease of use and less waste.

Keeps machine surroundings dry and safe!

For use on a workbench ...

...or an ideal "wipe-down" sorbent! Soft but durable outer cover makes it ideal for wiping down tools or machine parts.

## SXT - EXTRA-TOUGH OIL ONLY PADS. THE IDEAL SORBENT WHEN DURABILITY OR ABRASION-RESISTANCE IS REQUIRED.

- Absorbs oil & petroleum based liquids.
- Durable coverstock provides extra strength and lasts longer.
- Low-linting makes SXT ideal as a "wipe down" sorbent by eliminating loose fibres.
- Soft & pliable sorbent makes it easy to use.
- Perforated pads use only what you need for smaller spills in order to minimise waste.

## Oil Only Drum Top Covers - Filtration: SF Micro Fibres

## OIL ONLY DRUM TOP COVERS -KEEP YOUR DRUM TOPS NEAT & CLEAN.

- Absorb oil & petroleum based liquids.
- Create a clean and safe work floor by preventing pump drips from reaching the floor.
- Pre-cut holes for 205 litre drums.

#### **Problem:** Puddles and dirty rags on top of the drum.

Solution: Drum top covers on top of the drum. No more messy pump drips or dirty rags.

## Order ReferenceArticle No.DescriptionTotal Qty/PackAbsorption Capacity (Ltrs)DT025813784DRUM TOP COVER, Ø 56 cm25 Piece(s) / Box26

## SF MICRO FIBRES -SPECIALLY DESIGNED FOR FILTERING OIL FROM WATER AND MOIST AIR.

- High absorbency: up to 15 times its own weight.
- Allows for filtration with minimal flow rate.
- No additional pressure needed to force the oily liquid through.
- Fibres can be used in any size or shaped container in which they are placed.
- Numerous applications such as pre-filters for compressors, paint filtration, water filtration, etc

Filtering of waste water before discharging into water discharge area.

## **OIL ONLY SOCS - THE IDEAL SORBENT FOR ABSORBING LEAKS AND SPILLS AROUND MACHINES.**

Leeks and drips create a slippery work floor.

**Solution**: SOCs quickly soak up leaks and drips for a clean and safe workplace.

- Absorb oil & petroleum based liquids while repelling water.
- Various lengths allowing the right size for your application.
- Strong wicking action: absorption begins instantly after contact with the spilled liquid, no need to turn the soc.
- Flexible design allows the soc to fit around any machine, corner or curve.
- FLEXISOC: The ultimate soc for flexibility! Cut the soc into the length you want and re-clip.

## Marine High Absorbency On The Water

## Marine

SPC marine specialty absorbents are designed to float on water and contain or absorb a wide variety of marine fuels and oils. From containment to booming and skimming operations, these absorbents will soak up unwanted fluids on lakes, rivers, streams and coastal shorelines. Marine absorbent products are made for high absorbency and rapid deployment in demanding emergency situations.

### The Technology:

SPC absorbent booms are constructed of highly absorbent polypropylene fibres encased in a durable skin that is lined with a heavy duty tow rope. The booms are fastened with stainless steel connectors on each end to link booms together for fast retrieval. The staple clips provide extra strength which is extremely important when towing heavy booms saturated with oil.

## **Recommended For:**

- Marinas
- On boats & ships
- Loading docks
- Affluent pipes
- Outdoor liquid transfer points
- · Fuel storage tanks

## Marine - Oil Only Rolls & Booms

### ENV - OUR MOST BASIC OIL ONLY ROLLS. IDEAL FOR MARINE APPLICATIONS.

- Absorbs oil & petroleum based liquids.
- Stronger more durable product with a superior finish - looks better and performs better!

## SPC OIL SORBENT BOOMS - A PREMIUM BOOM TO ABSORB AND CONTAIN OIL SPILLS ON WATER.

Metal clips to link booms.

Four staple clips for durability.

- · Repel water while absorbing oil and petroleum based liquids.
- Increased performance for SPC810-E & SPC816-E booms thanks to additional fill (higher absorption capacity) and larger diameter (greater surface area).
- · Float indefinitely even after saturation.
- · Strong outer sleeve for durability.
- Inner rope provides strength when deploying & retrieving booms.
- Inner sleeve keeps the absorbent material intact within the booms.
- 3-4 staple clips at critical stress area add strength and prevent booms from splitting during retrieval.
- · Metal clips & rings allow for easy linking of booms.

## SPC RESPONSE BOOMS - FOR THE CONTAINMENT OF OIL SPILLS ON WATER.

## **SPC MINI BOOM - THE IDEAL SOLUTION FOR OIL SPILLS IN CALM WATER AREAS.**

- Portable and easy to deploy by 1 person.
- Lightweight ideal for remote and difficult to reach areas.
- Requires minimum storage space.
- A great solution for fire brigades, first responders, water and road transport companies.
- Encapsulated chain provides stability.
- PVC coated material for greater durability.
- Quick and easy to assemble for a quick response to spills in small streams and canals.
- Optional PVC carry bag to protect the boom during storage and to facilitate transport.

| Order Reference | Article No. | Description   | Quantity |
|-----------------|-------------|---|----------|
| SPCMB-0525      | 813803      | MINI BOOM, overall height 20 cm (7.5 cm Float - 12.5 cm Skirt) x 7.5 m length | 1 Piece  |
| SPCMB-BAG       | 813804      | CARRY BAG for 1 Mini Boom   | 1 Piece  |

## **SPC JUNIOR BOOM - AN ABRASION AND WEATHER** RESISTANT CONTAINMENT BOOM FOR REPEATED USE.

- Great for calm and protected waters with light currents.
- Aluminum ASTM connectors for linking multiple sections.
- Encapsulated chain provides extra strength and stability.
- Strap is used as a handle for carrying or adjusting the boom by hand.

Description

- PVC coated material for greater durability.
- Requires a minimum of maintenance.

## Universal For Indoor Spill Control

### **Universal Absorbency:**

Use these all-purpose absorbents to clean-up oils, coolants, solvents and water-based fluids anywhere in your facility. Around machinery, under leaky pipes or fittings, in messy traffic areas, for general maintenance projects – they are your first choice for indoor spill control. Plus, their grey colour masks spills and stains – helping you resist the urge to pick up the absorbent before it is fully saturated.

## The Technology:

The technology or structure behind each of the universal products helps determine the strength and absorbency of each absorbent. This information along with the product's characteristics (grade, perforations, etc.) are what helps you decide which absorbent is best for your application.

## **Common Liquids Absorbed:**

- Coolants
- Solvent
- Oils
- Gasoline
- Vegetable of
- Kerosene
- Latex paint
- And other water-based fluids

## UNIVERSAL ABSORBENT FAMILY:

All of these pads and rolls start with a highly absorbent polypropylene core - the difference is what happens from there. Features such as durability, absorbency grades and coverstock give you versatile absorbent options for your specific application.

## **Rolls & Pads**

## **GP - E**CONOMICAL MAINTENANCE ROLLS FOR APPLICATIONS THAT REQUIRE HIGH ABSORBENCY AND LOW COST.

- Absorbs a variety of industrial liquids including oils, water, solvents, coolants, etc.
- GP rolls have a superior finish with less lint for improved abrasion resistance compared to traditional single ply rolls.
- · Ideal roll to cover a larger surface area for a fast clean up of leaks and spills where low cost and high adsorbency are required.

1-PLY Meltblown Dimpled

(optional) Perforated

## **GP** - ECONOMICAL GENERAL PURPOSE MAINTENANCE PADS MADE WITH SPC'S MAXX TECHNOLOGY!

## **A** PERFECT COMBINATION OF STRENGTH AND ABSORBENCY

- Absorbs a variety of industrial liquids including oils, water, solvents, coolants, etc.
- Highly absorbent, GP MAXX pads adsorb up to 18 times their weight !
- Thanks to the high absorbency of our MAXX technology, less material is needed to absorb more liquid and so you pay less for disposal!
- GP MAXX pads have a smooth surface finish with less lint than traditional single ply pads looks better and performs better!
- Packed in boxes for easy handling and storage.
- Ideal for industrial applications where low cost and high absorbency are required.

| Order<br>Reference | Article No. | Description  | Total Qty/Pack   | Absorption<br>Capacity (Ltrs) |

### MRO PLUS - OUR MOST POPULAR MAINTENANCE ROLLS FOR GENERAL INDUSTRIAL USE

- · Absorbs a variety of industrial liquids including oils, water, solvents and coolants.
- · One-sided spunbond gives extra strength as well as lower lint.
- · A high quality maintenance sorbent for applications where a combination of adsorption and added strength is required.
- Available with perforations for ease of use and to minimise waste.
- Choose from a wide variety of sizes for your application including a handy dispenser box.

2-PLY n + spunbound on 1 side dimpled and (optional) perforated

Use pro-actively to catch leaks and drips.

A good general use sorbent to fit around machines to absorb overspray.

## **Rolls & Pads**

MRO pads under leaking seals & faucets. Ideal to catch small drips.

Dispense & Dispose system: Dispenser box for easy access to the product & disposal bags and box to ensure proper disposal of waste.

## MRO PLUS - OUR MOST POPULAR MAINTENANCE PADS. PERFECT FOR GENERAL INDUSTRIAL MAINTENANCE OR SPILL CLEAN UP.

- Absorbs a variety of industrial liquids including oils, water, solvents, coolants, etc.
- One-sided spunbond gives extra strength as well as lower lint.
- · Ideal sorbent for dealing with leaks and drips in the workplace.
- Perforated to help you minimise waste and lower your disposal costs.
- Available with SPC's unique "Dispense & Dispose" system for added convenience and lower cost per pad!

Black disposal bags, capacity 151 litres, can be ordered separately. Order Reference: BAG-150DND

### **UXT - E**XTRA TOUGH MAINTENANCE ROLLS FOR APPLICATIONS THAT REQUIRE A DURABLE, NON-LINTING AND ABRASION RESISTANT SORBENT!

- · Absorbs a variety of liquids including oils.
- 3-ply construction adds strength and durability.
- Spunbond outer layers make the product stronger for longer use and improved abrasion resistance.
- Non-linting spunbound eliminates loose fibres and makes the product stronger and abrasion resistant.
- · Ideal for use in areas with moderate foot traffic.
- Perforated to permit the use of precisely the right amount of material to reduce waste.

| Order Reference | Article No. | Description   | Total Qty/Pack            | Absorption<br>Capacity (Ltrs) |
|-----------------|-------------|---|---------------------------|-------------------------------|

| UXT330-DP-E     | 813816      | ROLL, 76 cm x 46 m, Medium weight, double perforated & bonded | 1 Roll(s) / Box           | 141                           |

### **UXT - EXTRA-TOUGH MAINTENANCE PADS. THE IDEAL SORBENT FOR INDUSTRIAL** APPLICATIONS THAT REQUIRE DURABILITY OR ABRASION-RESISTANCE.

An ideal sorbent for cleaning rough machine parts without leaving residue.

- Absorbs a variety of industrial liquids including oils, water, solvents, coolants, etc.
- Durable spunbound provides extra strength and fosters longer use.
- Low-linting: makes UXT ideal as a "wipe down" sorbent by eliminating loose fibres.
- Soft & pliable sorbent makes it user-friendly.
- Perforated pads use only what you need in order to minimise waste.

## HT, Pillows, Drum Top Covers

2-PLY Meltblown + spunbound on 1 side, dimpled and

(optional) perforated

### **HT** - THE MULTI-USE MAINTENANCE PRODUCT: USE IT AS A PAD, WIPE, ROLL, PILLOW OR SOC!

- Absorbs a variety of liquids: water, oils, coolants, solvents, ...
- Convenient dispenser box for easy access to the product.
- Multiple perforations always the right size in order to minimise waste.
- Multi-ply construction for durability, good absorption and low lint on one side.

## Wipes & Socs

### SLIKWIK WIPES - PERFECT FOR CLEANING TOOLS, MACHINE PARTS OR SMALL DRIPS.

- Chemical resistant for use with oil, water, solvents or even acids.
- Lower cost per wipe compared to reusable wipes. No extra laundering cost.
- One time use eliminates risk of contamination from previous users, metal chips, hazardous chemicals etc a potential problem with recycled wipes.
- Absorbent microstructure retains solvent based cleaners, reducing consumption of expensive cleaners when compared to cotton or paper wipes.

| Order<br>Reference | Article No. | Description                                      | Total Qty/Pack     | Absorption<br>Capacity (Ltrs) | Colour |

Great around machines - keeps the work floor clean and safe.

## ALLWIK-SOC'S - ABSORBING LEAKS AND SPILLS AROUND MACHINES.

- Absorbs a variety of industrial liquids including aggressive chemicals.
- Different lengths in order to always have the right size for your application.
- Flexible design allows the soc to fit around any machine, corner or curve.
- Filled with universal meltblown polypropylene.

| Order<br>Reference | Article No. | Description            | Total Qty/Pack    | Absorption<br>Capacity (Ltrs) |
|--------------------|-------------|------------------------|-------------------|-------------------------------|

## **Chemical** Colour Coded For Safety

### **Chemical Absorbency**

Alert your employees to the presence of hazardous fluids with green and yellow chemical absorbents from SPC. These surfactant-treated polypropylene pads and rolls can be used on a wide range of chemicals, including hydrofluoric acid and are chemically inert, so they will not react with aggressive fluids.

#### The Technology:

The technology or structure behind each of the chemical products helps determine the strength and absorbency of each absorbent. This information along with the product's characteristics (grade, perforations, etc.) are what helps you decide which absorbent is best for your application.

## **Common Liquids Absorbed:**

- Acids and bases
- Aggressive chemicals
- Oils
- Solvents
- Citric acid
- Water-based fluids
- Sodium hydroxide
- And other unknown chemicals

## CHEMICAL ABSORBENT FAMILY:

All of these pads and rolls start with a highly absorbent polypropylene core - the difference is what happens from there. Features such as durability, absorbency grades and coverstock give you versatile absorbent options for your specific application.

|  | Applications   | Durability               | Linting           | Absorbency<br>Grades | Construction   |
|--|--|--------------------------|-------------------|----------------------|--|

#### **Increase Safety and Save: Colour Coded Waste Stream**

Save on disposal costs by using different coloured absorbents in specific parts of you facility and throughout your waste streams.

**For example:** a facility might use yellow absorbents in radioactive areas and green absorbents in their chlorine areas. Then the facility would use grey universal absorbents for the rest of their facility. A colour coded system benefits your employees' understanding of the waste stream because they will assume yellow absorbents are saturated with radioactive waste and green absorbents are saturated with chlorine.

i

## HIGH VISIBILITY SAFETY & CHEMICAL MAT

- Sign and absorbent all in one.
- High visibility, safety mat for all purpose fluid pick-up and hazardous chemical.
- Colour-coded yellow for safety and easy separation of hazardous waste
- 3-ply construction (Spunbound, Meltblown and Meltblown coverstock)
- · Product will not react with aggressive fluids

## RECOMMENDED APPLICATIONS

- For use where hazardous chemicals and acids are involved
   Nuclear power facilities
- Chemical spill response units
  - Laboratories and hospitals
- Any industrial application utilising aggressive fluids
- Foot traffic areas or where extra durability is needed

## Chemical - UN Pads & Rolls

## UN PADS & ROLLS -FOR USE WHEN CHEMICALS AND HAZARDOUS LIQUIDS ARE INVOLVED!

- Absorb a wide range of chemicals, including acids and caustics.
- One-sided spunbond gives extra strength as well as lower lint.
- Chemically inert: product does not degrade or cause a dangerous chemical reaction with the adsorbed liquid.
- Green colour alerts workers that product is being used for hazardous liquids.
- Green colour also allows the user to identify and separate hazardous waste for disposal, resulting in lower disposal costs.
- Perforated for flexibility tear at the perforations for smaller sized pads to use only what you need.

Perfect to clean up chemical spills...

... or for use in laboratories.

### **UN B**OOMS - THE BEST WAY TO ABSORB AND CONTAIN LARGE SPILLS OF CHEMICALS AND HAZARDOUS LIQUIDS.

- Absorb chemicals, acids & bases as well as oils and water-based liquids.
- Metal clips & rings allow for easy linking of booms.
- Inner rope secured with four clips provides strength.
- Strong outer sleeve for durability.
- Inner sleeve keeps the adsorbent material intact within the boom.

## HAZWIK PILLOWS - FOR ABSORBING SPILLS & LEAKING LIQUIDS IN TIGHT SPACES.

Protection of fragile liquids during transport.

- Absorb chemicals, acids & bases.
- Good for large spills once contained.
- Ideal for use in packaging for extra protection during transport.
- 2 different sizes to fit any application.

## Mats & Rugs Clean, Dry Floors Prevent Slips, Trips & Falls

## Mats & Rugs

SPC absorbent mats and rugs keep aisles and walkways slip-free by absorbing and containing oils, liquids or other spills. They are designed to hold up in your toughest applications and are ideal for high traffics areas and workstations. Compared to an entrance mat, absorbent mats and rugs offer better traction, reduce slipperiness and keep liquids from being tracked from one area to the next.

## The Technology

SPC absorbent mats and rugs are constructed from durable, polypropylene fibres - a more durable manufacturing process with a larger fibre diameter than meltblown fibres. This technology means that fibres or absorbent materials will not come loose around high traffic areas or workstations.

## **Common Liquids Absorbed:**

- Bases
- Oils
- Chemical
- Solvents
- Water-based fluids

## Mats & Rugs

## MATS & RUGS ABSORBENT FAMILY:

All of these mats and rugs start with a highly absorbent core - the difference is what happens from there. Features such as durability, absorbency grades and construction give you versatile absorbent options for your specific application. Use the table below to help you choose the appropriate mat or rug for your applications.

|   | Applications   | Durability               | Linting        | Absorbency<br>Grades | Construction  |           |

## **BATTLEMAT - C**AMOUFLAGE PATTERNED ROLLS. TOUGH COVER LAYER HIDES LEAKS AND DRIPS FOR LONGER USE, OFFERS SURE FOOTING AND IS IDEAL FOR AREAS WITH MODERATE FOOT TRAFFIC.

- Absorbs spills & leaks of any liquid: oils, coolants, water and solvents.
- Camouflage pattern hides dirt and reduces premature replacement.
- Durable abrasion resistant top layer stands up to moderate foot traffic.
- Ideal for use in walkways, production & machine areas, under assembly lines, etc.
- Perforations available for flexibility: easy to tear off the desired length, minimises waste.

## **Industrial Rugs & Mats**

## COMFORT SPILL MAT - THE ABSORBING ANTI-FATIGUE MAT!

The Comfort Spill Mats from SPC are a combination of an absorbent matting fitting inside an anti-fatigue mat.

- Design provides buoyancy for basic fatigue relief.
- Silicone free allowing it to be used in vehicle painting facilities.
- High quality nitrile rubber makes the mat oil resistant.
- Rough surface allows sorbent to "grip" anti-fatigue mat.
- Allows you to keep workers safe while protecting the floor from oils and other industrial liquids.
- Available in an "Oil Only" version as well as a "Maintenance" version for use with general industrial liquids.

## TOUGHSORB - SEMI-PERMANENT ADHESIVE MATS

ToughSorb semi-permanent adhesive mats are a great solution to contain spills and prevent them from spreading over the workfloor before they can cause accidents and create liabilities.

- 25% more absorbency than competitive options
- Easily adhered to and removed from clean and flat surfaces without leaving residue
- · Easy installation

D.CII.

 Provides aesthetically pleasing finish in aisles and walkways while masking leaks, drips and spills.

### **TRACKMAT - OIL ONLY ROLLS FOR HIGH TRAFFIC** AREAS THAT REQUIRE HIGH ABSORPTION AND OUTSTANDING DURABILITY.

- Absorbs oil & petroleum based liquids.
- Heavy duty top layer for maximum strength and durability, is ideal for heavy traffic.
- · Non-slip backing keeps the mat in place.
- Barrier film limits liquids from penetrating to the floor.
- Grey colour masks drips and spills for longer use.
- UV resistant top layer makes it ideal for use indoors and outdoors.

Ideal underneath

leaking transformers.

Great for use outdoors thanks to UV resistant top layer.

Trackmat eliminates unsightly stains.

## **Industrial Rugs & Mats**

So tough forklifts can drive over it !

# **SIR - R**OLLS DESIGNED FOR HIGH TRAFFIC AREAS AND WORKSTATIONS WHERE THERE'S A NEED FOR CLEAN AND SAFE WORK FLOORS AND WALKWAYS.

- Needle-punched polypropylene makes product tear resistant. Forklifts can drive over it without damaging it.
- Absorbs all liquids including aggressive chemicals.
- Grey colour masks stains and promotes longer use.
- Prevents liquid from being tracked from one area to another.

BSM creates a dry and slip free workplace.

# **BSM - NON-SLIP & IMPERMEABLE MATS. PERFECT FOR HIGH TRAFFIC AREAS AND WALKWAYS THAT NEED TO BE DRY, CLEAN AND SLIP-FREE.**

- Non-slip, impermeable barrier film sticks the mat to the floor and prevents liquids from leaking through. For best results, clean the floor before use.
- · Backing resists curling and buckling.
- Needle-punched polypropylene fibres make product tear resistant, ideal for use in high traffic areas.
- Absorbs oil, water and non-aggressive chemicals.
- Prevents unsightly tracking between areas.

## **Eco-Friendly and High Performance**

#### **Re-Form<sup>™</sup> Absorbents**

Re-Form<sup>™</sup> absorbents are made from a minimum of 80% recycled newsprint and other cellulose for Universal products, and 80% cotton and other cellulose fibres for oil only products. Plus, Re-Form<sup>™</sup> absorbents offer greater absorbency, which means you'll have less waste and lower disposal costs.

#### The Technology

The unique construction of Re-Form<sup>™</sup> absorbent material offers superior absorbency. In fact, Re-Form absorbents have been tested to be 25-50% more absorbent than oil-based polypropylene absorbents, so you'll use less product to get the job done. Less waste makes this absorbent both green and lean!

#### Cost Savings

Re-Form<sup>™</sup> absorbents are typically less expensive than polypropylene absorbents which are oil-based and dependant upon volatile oil prices.

#### **Re-Form<sup>™</sup> Universal Absorbents**

- Recommended For:
- Coolants
- Solvents
- Oils & Gasoline
- And other water-based fluids

#### **Re-Form<sup>™</sup> Oil Only Absorbents** Recommended For:

- Grease
- <u>Coolants & Transmission fluids</u>
- And other petroleum-based fluids

Re-Form<sup>™</sup> Absorbents are not intended for use with highly aggressive chemicals.

## **Re-Form™ Eco-Friendly Absorbents**

More and more companies are looking for "green" sorbents that save the environment without compromising quality and performance. In response to the increasing demand SPC introduced Re-Form<sup>TM</sup>, a line of environmentally friendly sorbents made from a minimum of 70% recycled newsprint, cellulose or cotton. Re-Form<sup>TM</sup> sorbents offer high absorbency, strength, durability and help to reduce the company's impact on the environment.

- Green Made from natural ingredients a renewable resource.
- More absorbent 25-50% more absorbent than meltblown polypropylene sorbents.
- Cost effective More absorbency for the same price. Use less to absorb more - reduce waste.
- Safe Fire Retardant (universal version) -Meets ASTM E84-05 standard.
- Stable prices Not dependent upon oil prices.

## **Re-FORM<sup>™</sup> ABSORBENT FAMILY:**

All of these pads and rolls start with a highly absorbent core made from recycled materials - the difference is what happens from there. Features such as durability, absorbency grades and coverstock give you versatile absorbent options for your specific application.

#### **R**E-FORM<sup>™</sup> - **B**ASIC UNIVERSAL PADS AND SOCS TO CLEAN UP SPILLS AND LEAKS.

- Made from 80% recycled newsprint and other cellulose material.
- Universal product great for water, oil and non aggressive chemicals.
- Higher absorbency means less product is needed for the clean up.

PADS Re-Form, 38 cm x 48 cm, Heavyweight

PADS Re-Form, 38 cm x 48 cm, Lightweight

SOC, Re-Form Multiwik, diam.7.6 cm x 1.2 m

SOC, Re-Form Multiwik, diam.7.6 cm x 1.2 m

SOC, Re-Form Multiwik, diam.7.6 cm x 2.4 m

SOC, Re-Form Multiwik, diam.7.6 cm x 3.6 m

PADS Re-Form, 38 cm x 48 cm, Medium Weight

- Suited for catching drips and emergency spill clean up.
- Meets ASTM E84-05 fire retardancy standard.

#### **Re-FORM<sup>™</sup> PLUS UNIVERSAL - ECO-FRIENDLY PADS AND ROLLS WITH ONE-SIDED COVERSTOCK FOR GENERAL CLEAN UP AND WIPING APPLICATIONS.**

- Made from 80% recycled newsprint and other cellulose material.
- · Absorbs and retains oils, coolants, solvents. Not for use with highly aggressive acids and caustics.
- · One-sided spunbond coverstock adds durability and makes the product ideal for general maintenance and wiping applications.
- Outstanding absorbency (up to 20 times its weight).
- · Use less to absorb more reduces waste and lowers clean up costs.
- Designed with easy tear perforations to help reduce waste.
- Meets ASTM E84-05 fire retardancy standard.

#### **R**E-FORM<sup>™</sup> **XP**LUS **U**NIVERSAL - **D**UAL SIDED ECO-FRIENDLY SORBENTS PROVIDING EXTRA STRENGTH AND ABSORBENCY.

- Made from 80% recycled newsprint and raw cellulose.
- Absorbs all types of industrial liquids (water, oils, solvents, coolants, etc) except aggressive acids and caustics.
- Built with a tough, abrasion resistant coverstock on both sides, this construction increases the durability and strength of the product by 20%.
- Ideal sorbent for wiping applications, handling light foot traffic, and as a general maintenance sorbent for indoor use.
- Higher absorbency means fewer sorbents per spill.
- Perforated to minimise waste use only what you need.
- Meets ASTM E84-05 fire retardancy standard.

#### **Re-Form<sup>™</sup> Oil Only - Environmentally-friendly sorbents with superior** Absorbency made from 80% cotton.

- Made from 80% cotton a renewable resource.
- Absorbs oil, grease, transmission fluid and oil based paints and solvents.
- They repel water and float, making them ideal for marine spills and outdoor industrial applications.
- Spunbond coverstock adds durability and makes the product ideal for general maintenance and wiping applications.
- Perforated allowing the customer to use only what he needs - minimising waste and reducing disposal costs.
- Can absorb up to 30 times their weight in liquid. This means less product is needed to clean up the spill resulting in lower clean-up costs.

Note: Re-Form<sup>™</sup> Oil Only sorbents are not fire retardant.

## Stations, Kits & Containment Keeping You Safe From Unexpected Spills or Leaks.

#### **Spill Containment**

A proper spill containment plan can help create a safe and productive work environment for your employees. SPC spill containment products help to prepare and protect any facility with solutions for unexpected, critical accidents. Absorbent storage centres and SPC spill kits provide fast-response solutions for unplanned spills of oils, solvents, coolants and other fluids. SPC drains, spill decks, berms, pans and pallets also ensure facility safety by catching, controlling and containing unexpected leaks, drips and spills.

- Accidental or unexpected spills
- Indoor and outdoor drain applications
- · Storing absorbent products at the point of need

### **Sorbent Dispensers**

**DJR129** Steel Spill Centre H 1500.00 mm x W 560.00 mm x D 680.00 mm

DJR128 Vertical roll dispenser 1m wide roll

#### SORBENT DISPENSERS: EASY ACCESS FOR EFFICIENCY

Make your sorbents easily accessible and keep your work environment clean to improve efficiency.

- · Various sizes, adjustable to your rolls and applications
- · Lightweight mobile dispensers: easily placed where they are needed
- · Compact, space saving design
- Easy to install = saves time

#### **Multiple Options:**

Static Roll Dispenser: strong steel construction, yet lightweight and mobile.

**Wall Mounted Roll Dispenser:** bar that holds the roll while the sheets are being torn off. Lightweight stainless steel construction.

**Vertical Roll Dispenser:** features wheels for easy manoeuvrability. Strong steel construction, yet lightweight and mobile.

**Complete Spill Centre:** contains 3 shelves for dispenser boxes, 1 roll holder for sorbents plus mounting facilities for both stock card and disposal bags.

#### SPILL RESPONSE PLUS: HIGH ABSORBENCY AND RELIABILITY FOR SMALL SPILL APPLICATIONS

Spill Response Plus is a smaller size pad and roll designed to be highly absorbent, durable, low lint and to reduce waste. By using proper absorbents for your small spill applications, you lower the risk of workplace accidents.

- Dimpled design provides better looking, strong and durable product
- · Roll is perforated so you only use what you need
- Includes universal (grey), oil only (white) and chemical (green) applications
- · Perfect to be used with Spill Safety Stations and Sorbent Dispensers

#### **B**E PREPARED WITH SPILL KITS ON HAND THROUGHOUT YOUR FACILITY

#### Emergency response kits to handle any type of spill.

Accidents do happen, so it's better to be prepared. Brady offers a complete selection of SPC spill kits in a variety of types and sizes to equip you with everything you need to clean-up accidents when they happen. Quickly and easily clean-up spills of oils, solvents, coolants and other fluids. They are ideal for fast response to critical accidents.

#### Many of our kits are available in the following types:

- Universal/Maintenance Kits: For oil, water-based and chemical liquids
- Oil Only Spill Kits: For oil and petroleum-based liquids
- Chemical Spill Kits: For aggressive and hazardous liquids

#### Spill Kits Increase Efficiency

Worker productivity and efficiencies can be improved dramatically by placing spill kits or absorbent storage centres strategically around the facility and closer to the areas of need. For both emergency response and routine maintenance and safety, you don't want employees wandering away from their workstation to the other side of the plant or tool room to find the absorbent materials they need.

Freight Vehicles

#### Maintenance Areas

Shipping Docks

The European ADR 2005 agreement stipulates that carriers of dangerous goods are obliged to, among other things: "Provide their trucks with all the necessary safety equipment like extinguishers, warning signs, first aid equipment and a spill kit." With this in mind, SPC developed the ADR spill kit. Thanks to its compact design, the ADR spill kit requires a minimum of storage space yet it contains all the sorbents needed to handle a small spill: socs to contain the spill - pads and pillows for the clean up.

- · Economical The best value for your money.
- High absorbency at a low cost.
- Compact: Easy to put in smaller storage areas, behind or under the seat of a truck.
- Durable see-through bag makes it easy to check the spill response supplies.
- Quick & easy access to the sorbents ensuring a fast response thanks to the zipper which opens up the entire front of the bag.
- · Easy to carry with handy shoulder strap.
- Hassle free: Complete with gloves, disposal bags and sorbents everything you need!

Small kit contains: 25 pads (41 cm x 51 cm), 4 socs (Ø 7.6 cm x 122 cm), 1 pair of gloves, instruction sheet and 1 disposal bag. Large kit contains: 35 pads (41 cm x 51 cm), 1 soc (Ø 7.6 cm x 122 cm), 1 soc (Ø 7.6 cm x 244 cm), 1 pillow (43 cm x 48 cm), 4 pillows (23 cm x 23 cm), 1 pair of gloves, instruction sheet and 2 disposal bags.

#### **OPA KITS - HELP YOU COMPLY WITH THE OPA90 REGULATIONS.**

What is OPA? The Oil Pollution Act (OPA) was signed into law in 1990 (USA) in response to one of the worlds largest oil spills, the sinking of the oil tanker Exxon Valdez in Alaska. Regulations were set for oil tankers, vessels, oil tanker owners and operators improving their ability to prevent and respond to oil spills. SPC has developed several kits in order to help you comply with the OPA90 regulations. All of our kits presented here are compliant with the OPA90 regulations.

#### 7 BARREL (1100 LITRES) OPA90 KIT COMPLIANT

#### **Contents:**

i

- 750 pads (41 cm x 51 cm)

## **Spill Containment**

## **S**PILL **D**ECKS - **A** COST EFFECTIVE MEANS FOR CONTAINING POTENTIALLY HAZARDOUS LEAKS IN DRUM STORAGE AND DISPENSING AREAS.

With their 80-litre capacity, these low profile, 2-drum spill decks are a cost effective means for containing potentially hazardous leaks in your drum storage and dispensing areas. Each modular deck has built-in clips to easily and safely connect multiple decks to create a customised drum storage platform.

| Order<br>Reference | Article<br>No. | Description  | Quantity | Sump Capacity<br>(Ltr) | Dynamic Load<br>Capacity (Kg) |
|--------------------|----------------|--|----------|------------------------|-------------------------------|
| SC-SD2             | 813966         | SPILL DECK, 2 drums, 132 (L) x 66 (W) x 15 (H) cm        | 1        | 80                     | 500                           |
| SC-DK              | 813967         | SUMP DRAIN KIT - to share capacity across multiple decks | 1        | -                      | -                             |

• Sump Drain Kit allows you to connect multiple spill decks in order to increase the overall sump capacity.

- Nestable decks minimise stock space and reduce your transportation costs.
- Built-in clips allow you to easily and safely connect multiple decks to create a customised drum storage platform.
- Grate pins prevent bulging walls and premature replacement of the unit.
- These decks have been engineered to make sure you can easily use your forklift to re-locate your decks.

## **Spill Containment**

#### SPILL PALLETS - IDEAL PLATFORMS FOR INDOOR STORAGE OF 110 AND 200 LITRE DRUMS OR OTHER CONTAINERS.

Whether you are looking to comply with governmental secondary containment regulations or just want the security of knowing your facility is protected, SPC spill pallets offer ample capacity (even if an entire drum empties into the unit). Available in both a 2-drum and 4-drum configuration, the spill pallets offer up to 510 litres of containment. These pallets or for use with drums only and not suitable for heavy traffic and IBC.

| Order Reference | Article No. | Description  | Quantity | Sump Capacity<br>(Ltr) | Dynamic Load<br>Capacity (Kg) |
|-----------------|-------------|--|----------|------------------------|-------------------------------|
| SC-DP2          | 813968      | SPILL PALLET, 2 drums, 132 (L) x 66 (W) x 43 (H) cm, 260 litres  | 1        | 260                    | 500                           |
| SC-DP4          | 813969      | SPILL PALLET, 4 drums, 132 (L) x 132 (W) x 43 (H) cm, 510 litres | 1        | 510                    | 1000                          |
| SC-DPR          | 813970      | RAMP, 180 (L) x 76 (W) x 55 (H) cm                               | 1        | -                      | 295                           |
| SC-DK           | 813967      | SUMP DRAIN KIT - to share capacity across multiple decks         | 1        | -                      | -                             |

- · Both 2-drum and 4-drum spill pallets are the same height allowing easy transfer of drums from one pallet to the other.
- Optional ramp works with both the 2-drum and 4-drum spill pallets.
- These pallets have been engineered to make sure you can easily use your forklift or pallet jack to re-locate your pallets.
- · Grates can be interchanged between the pallets and offer large openings to easily remove spills.
- · Nestable pallets allow you to make better use of plant, warehouse or trailer space.

#### **SPILL CONTAINMENT SOLUTION**

Brady's spill containment solutions enable the safe and regulation compliant storage of hazardous substances which can contaminate the water table, aggressive chemicals and flammable substances stored in drums, containers or IBCs.

- · Capacity meets/exceeds European, UK and US standards
- Approved to the German DiBt standard
- Manufactured from environmental friendly, and fully recyclable UV-stabilised
- Resistant against most oils, acids, alkalis and aggressive chemicals
- Lack of steel parts guarantees protection from corrosion.

#### WORKFLOOR

Workfloors are a great way to handle and store hazardous fluids and contain potentially hazardous leaks in storage and dispensing areas.

- · Can hold/carry 2 or 4 drums or smaller containers
- · Can be easily assembled with other units by using the connector system
- Compatible with most forklifts and pallet trucks.

# **Brady Corporation**

## Our mission is to identify and protect people, products and places

#### **COMPANY OVERVIEW**

BRADY was founded in 1914 in Eau Claire, Wisconsin, as W.H. BRADY Co., and renamed BRADY Corporation in 1998. The company began selling products internationally in 1947. In 1984, BRADY went public, with stock trading on the Nasdaq Stock Market, and in 1999, moved trading of its stock to the New York Stock Exchange, where it trades under the symbol BRC. The company's global headquarters is in Milwaukee, Wisconsin.

#### **BRADY MANUFACTURES AND MARKETS:**

- products for identification and safety applications such as signs and markers, printing systems and software to produce identification products on-site and on demand
- products for wire identification, including labelling materials and tools for wire and cable marking in the electrical, datacom and telecommunication markets
- high-performance identification products, including labels and signs that remain legible and highly adhesive even in harsh environments
- products that identify people and enhance security by ensuring the right persons are in the right places at the right time

#### **OPERATIONS – SOME FACTS:**

- 6500 employees around the world
- Operations in 29 countries
- Distribution in more than 100 countries through more than 4,400 distributor partners
